

RIU Real Estate & Investment Country Report 2015: Sri Lanka

Celebrating the ten year anniversary, the 2015 Sri Lanka Real Estate Market and Investment Country Report is now more comprehensive than ever. Building on over a decade of updating real estate data, market information and intelligence, RIU is now firmly established as the number one source for all developers and investors as well as property hunters in the region. This report brings together volumes of facts and data on the market along with insights derived from senior Government officials, top developers from the region and also investors who have entered the market to realize opportunities in Sri Lanka for real estate and related investment projects.

The Sri Lanka Real Estate and Investment Report, compiled by Real Estate Intelligence Unit (RIU), the first in the market, represents an analysis of all real estate segments including luxury residential housing, commercial property

and retail malls as well as presenting the legal implications of investing in Sri Lanka and an analysis of potential risks involved.

This report covering all concerns of the real estate industry provides the reader with all they need to know about the real estate and investment market in the Sri Lanks.

"The 2015 report is a very comprehensive and interesting read." (Bradley James, real estate investor, Australia)

"With a track record of excellence that spans over a decade, RIU has established its reputation as the leading research house for the real estate sector and all the markets segments" (Assotech Realities, India)
